- **English** *B1-B2 Level*

HOBBİES

- **Designing**
- **Photography**
- Pixel art

ABOUT ME

Hello, my name is Ismail. I am in my first year of computer engineering at Abdullah Gül University. I have been working with pixel art for five years. In addition, I have worked as a pixel artist on five short story games. I am also striving to improve my skills in the field of computing. I continue to obtain certifications in this area. The areas I am currently focusing on learning are game development and web design. I also have intermediate-level knowledge of Godot.

WORK HISTORY

AS A PIXEL ARTIST

Evona Games - 2021 - 2023

- I worked as a pixel artist at this company and we collaborated on two game projects. I believe I have developed significantly in the field of pixel art. (Game Names: Circulus on itch.io - Vindex on itch.io)
